Student Management System

Java Source Code

```
import java.util.Scanner;

public class StudentManagementSystem {
    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        String[] names = new String[5];
        int[] rollNo = new int[5];

        System.out.println("STUDENT MANAGEMENT SYSTEM");

        for (int i = 0; i < 5; i++) {
            System.out.print("Enter Roll Number: ");
            rollNo[i] = sc.nextInt();

            sc.nextLine();

            System.out.print("Enter Student Name: ");
            names[i] = sc.nextLine();
        }

        System.out.println("\n--- Student Details ---");

        for (int i = 0; i < 5; i++) {
            System.out.println("Roll No: " + rollNo[i]);
            System.out.println("Name: " + names[i]);
            System.out.println("--------------------");
        }

        sc.close();
    }
}
```
